www.paediatricrespiratory.com/abstracts-2019/

The Conference is a must-attend meeting for paediatricians and wider child health professionals with an interest in respiratory medicine.

REASONS TO ATTEND

- Outstanding reputation among professionals as *the* forum for sharing new information and discussing controversial issues about respiratory problems in children
- Meet inspirational world leaders in the field of paediatric respiratory
- The faculty comprises of leading specialists and researchers from around the globe, united by the common purpose of improving respiratory care for our young patients.
- Network and share ideas with delegates from across the world
- 96% of delegates from 2018 rated the educational value of the Conference as good or excellent
- Wide range of specialist Pre-Conference Workshops/Masterclasses
- A Conference to challenge your thinking and stimulate debate

MUST-ATTEND NETWORKING EVENTS

Unwind after a busy first and third day at Conference with drinks, taking place on the Bush House roof top terraces. To the South you can enjoy views of the River Thames, Westminster, the London Eye and to the East, St Pauls and The City. The North Terrace offers stunning views of the Kingsway and the hustle and bustle of London. On the second day you can enjoy a three course conference dinner to be hosted in the Palm Court of the Hilton Waldorf.

HERE'S WHAT OUR PREVIOUS DELEGATES HAD TO SAY

"Excellent meeting. Like a concert headlined by the rock stars of the paediatric respiratory world."

"Great diversity of paediatric respiratory talks, presenting the latest advances within the field and excellent opportunities to meet colleagues and build new connections."

"A lot to take away and change the way we look at the current practice, improve and incorporate the changes and teach others to make the difference in health care. Excellent inspirational speakers."

"The quality of the talks was excellent and the emphasis on clinical application was great."

"Well done for such a good conference. Excellent speakers who provided engaging and interesting talks."

"The conference is the highlight of the UK paediatric respiratory calendar. New treatments, evidence-based practice and networking. Expert speakers from around the world. Altogether excellent."

"Excellent mix of practical and research information, thoroughly enjoyed conference and will recommend to colleagues. All speakers were outstanding."

"Very interesting and useful meeting, inspirational speakers. I have learned several things I can use in my practice."

"Speakers with vast knowledge and experience provided great insight to our understanding of the topics."

"Thank you so much for an excellent day, a good mix of research and clinical update, very well organised. Will definitely try attending next year!"

"The opportunity to hear from speakers from a huge geographical area, working within the field of respiratory. The programme was both diverse and interesting."
